Inline Object Rich-Text Regression (Multi-Page)

This fixture verifies that inline images and inline boxes participate in rich-text line wrapping and pagination as true in-run objects.

R1

Run 1 telemetry R1O1 #1 alert acknowledged, open settings R1O2 then stamp status R1O3 #3 HOT

and attach snapshot R1O4 for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R2

Run 2 telemetry R2O1 #5 alert acknowledged, open settings R2O2 then stamp status R2O3 #7 HOT

and attach snapshot R2O4 for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R3

Run 3 telemetry R3O1 #9 alert acknowledged, open settings R3O2 then stamp status R3O3 #11 HOT

and attach snapshot R3O4 for traceability. The inline objects above must stay

Inline Rich Objects Overlay

- line baseline
- ascent / descent bands
- reading-order connector
- O1 telemetry
- O2 settings
- O3 status
- O4 snapshot

F1 R3 anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R4 Run 4 telemetry R4O1 #14 alert acknowledged, open settings R4O2 then stamp status R4O3 #15 HOT

and attach snapshot R4O4 for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R5 Run 5 telemetry R5O1 #17 alert acknowledged, open settings R5O2 then stamp status R5O3 #19 HOT

and attach snapshot R5O4 for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R6 Run 6 telemetry R6O1 #21 alert acknowledged, open settings R6O2 then stamp status R6O3 #23 HOT

and attach snapshot R6O4 for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R7

Run 7 telemetry R7O1 #26 alert acknowledged, open settings R7O2 then stamp status R7O3 #27 HOT

R7O4

and attach snapshot for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R8

Run 8 telemetry R8O1 #28 alert acknowledged, open settings R8O2 then stamp status R8O3 #31 HOT

R8O4

and attach snapshot for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R9

Run 9 telemetry R9O1 #33 alert acknowledged, open settings R9O2 then stamp status R9O3 #35 HOT

R9O4

and attach snapshot for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R10

Run 10 telemetry R10O1 #37 alert acknowledged, open settings R10O2 #38 then stamp status

R10O3 #39 HOT

R10O4 
and attach snapshot for traceability. The inline objects above

F1 R10 must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R11 Run 11 telemetry R11O1 #41 alert acknowledged, open settings R11O2 #42 then stamp status R11O3 #43

and attach snapshot R11O4 for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R12 Run 12 telemetry R12O1 #45 alert acknowledged, open settings R12O2 #46 then stamp status R12O3 #47

and attach snapshot R12O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R13 Run 13 telemetry R13O1 #49 alert acknowledged, open settings R13O2 #50 then stamp status R13O3 #51

and attach snapshot R13O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R14 Run 14 telemetry R14O1 #53 alert acknowledged, open settings R14O2 #54 then stamp status R14O3 #55

and attach snapshot R14O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R15 Run 15 telemetry R15O1 #57 alert acknowledged, open settings R15O2 #58 then stamp status R15O3 #59

and attach snapshot R15O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R16 Run 16 telemetry R16O1 #61 alert acknowledged, open settings R16O2 #62 then stamp status R16O3 #63

and attach snapshot R16O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R17 Run 17 telemetry R17O1 #65 alert acknowledged, open settings R17O2 #66 then stamp status R17O3 #67

and attach snapshot R17O4  for traceability. The inline objects above

F1 R17 must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R18 Run 18 telemetry R18O1 #69 alert acknowledged, open settings R18O2 #70 then stamp status R18O3 #71

and attach snapshot R18O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R19 Run 19 telemetry R19O1 #73 alert acknowledged, open settings R19O2 #74 then stamp status R19O3 #75

and attach snapshot R19O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.

R20 Run 20 telemetry R20O1 #77 alert acknowledged, open settings R20O2 #78 then stamp status R20O3 #79

and attach snapshot R20O4  for traceability. The inline objects above must stay anchored in text order, break lines legally, and continue across pages without becoming standalone flow blocks.
